

Artists...

- Recall the key knowledge they have been taught and apply this year on year.
- Experiment with new ideas and present them in different ways, using a variety of media purposefully.
- Explore a variety of sources to stimulate and inspire thinking.
- Use drawing, painting, sculpture, craft and design techniques to develop and communicate their ideas, experiences and imagination.
- Record the creative process towards creating a final piece of art, including the use of sketchbooks.
- Refine work to become proficient in a range of techniques.
- Make careful and considered observations
- Make informed decisions about choices made considering style, effect and impact.
- Demonstrate discipline when experimenting, inventing and creating pieces of art
- Analyse and evaluate creative works, including their own, using artistic vocabulary.
- Compare similarities and differences between the work of different artists, craft makers and designers.
- Appreciate the work of great artists, craft makers and designers including an understanding of the historical and cultural development of their art forms.
- Use knowledge of other areas of the curriculum to support the application of disciplinary knowledge.

'Imagining and creating through
the eyes of an artist'
